HI!
I'M ANDREAS.

I've been building stuff for the web for 15 years or so and I love it.

Andreas is truly one of the most experienced and talented developers I have ever worked with. He is a great architect, a creative problem solver and is always up to date with the latest in web development. Andreas is always helpful and dedicated, which makes him a greatly appreciated colleague and consultant. Fun to work with and genuinely a stand up guy!

Kind words from esteemed colleague Fredrik (via LinkedIn)

ANDREAS IN BRIEF

I work mainly with Microsoft based systems such as EPiServer, Sitecore and Umbraco but always keep an open mind to new platforms and development environments. Lately I've spend a lot of time with Microsoft Azure which I really enjoy.

I thrive when I get to build large scale solutions, preferably with integrations to other systems and when I get the chance to coach and help my colleagues in order for them improve in their profession.

WORK EXPERIENCE

Head of Tech & Senior consultant at Comprend (2014-present)

The role Head of Tech at Comprend means setting standards for the Comprend team of developers and making sure we deliver high quality websites build on EPiServer, Umbraco and Wordpress. I coach and support a team of 15 developers and help them become better at what they do.

Senior solutions architect & lead dev at Ottoboni (2012-2013)

Senior web developer, tech lead in large EPiServer projects. Also tech lead for a 25+ site project based on Sitecore CMS.

Head of Development, senior consultant at Metamatrix (2008-2013)

Responsible for the development team and ScrumMaster. Working with Content Management systems like Sitecore and EPiServer. Building custom solutions using .NET Framework. Part of the company management team.

★ ★

two-time Sitecore MVP (once 2010 and then again 2013).

Web Developer at Capto Pension Consulting (2006-2008)

Part of a team that build a portal for employees to manage their pension portfolio. Did front-end development and back-end integrations with other systems.

Systems developer at Mycom (2005-2007)

Responsible for development of e-commerce platform with in-store systems, inventory and customer tracking and marketing.

Front-end developer at Orbitsville (2004-2005)

Build websites based on custom CMS for, among others, a large pharmaceutical company.

Web developer at Interfolio (2000-2004)

Developed and maintained websites based on a custom build CMS as well as Sitecore.

AWARDS

★

Sitecore MVP (Most Valuable Professional) 2013
